Krazy Ketchup Review

To be honest, I have never cared to dip fries or any type of food in ketchup. I don't add it to my burgers. I like ketchup when used in recipes but that's it. However, my family loves ketchup! Since I am trying to commit to a more organic, healthy diet I was excited to find Krazy Ketchup.

It was developed by two moms who wanted their kids to have a healthy alternative to regular ketchup. Krazy Ketchup has the following advantages over regular ketchup:

- ▶ 100% CERTIFIED ORGANIC - ALL INGREDIENTS
- ▶ NUTRIENT TRIO - CERTIFIED ORGANIC CARROT, ORGANIC SWEET POTATO, ORGANIC SQUASH PUREES
- ▶ NO SUGAR - MADE WITH AGAVE - LOW GLYCEMIC INDEX
- ▶ RICH in VITAMIN A, VITAMIN C, POTASSIUM
- ▶ NEW LARGER 15.5 OZ EASY SQUEEZE MULTILAYER POLYPROPYLENE RECYCLABLE BOTTLE

I like any product which can sneak some veggies into a food that kids love!

One evening as we sat down to a meal of burgers and fries I had the kids taste the Krazy Ketchup.

My daughter told me, "*It doesn't taste like regular ketchup. It's sweeter.*" Naturally, she read the label and told me, "*Here's the problem! They added carrots, sweet potatoes and squash!*" My son automatically agreed when he found out veggies had been added.

My daughter thought it would be great in any recipes calling for ketchup because it would add to the flavor. My opinion? I loved it! Having never been a ketchup fan before, I thought the slightly different, sweeter flavor was great. I even dipped my fries in it for the first time in my life. I could easily become a ketchup fan with a ready supply of Krazy Ketchup.

Buy It!

You can purchase Krazy Ketchup online. You can discover more about Krazy Ketchup on twitter and facebook.
